Fund Manager Comment

During Sep 2024, the fund generated an annualized return of 9.75% compared to the benchmark return of 7.94%. During the month, T-bill yields rose in the first three auctions by 1.00%, 0.92%, and 0.06% for the 3M, 6M, and 12M tenors respectively. The final auction showed renewed interest, as yields on the shorter-term 3M and 6M tenors either remained flat or declined for the first time after eight-weeks. T-bill yields for the 3M, 6M and 12M tenors closed in for Sep 2024 at 10.49%, 10.72% and 10.05% vs 9.49%, 9.84% and 10.01% respectively as at the end of Aug 2024. Notably Investors preferred shorter term T-Bills during the month, possibly due to the uncertainty of the election and new government's future actions. The month saw a single T-bond auction, where yields rose also due to the uncertainty surrounding the election. The 15.02.28 maturity bond was issued at a weighted average yield of 13.79%, the 15.06.29 maturity at 13.98%, while all bids for the longer 15.09.34 maturity were rejected due to the quoted yields being too high. In the secondary market, yields increased in the 1st half and eased towards the end of the month. During the month, a key agreement was finalized between International Sovereign Bond holders and Sri Lanka. The CBSL maintained its policy rates during Sep 2024 Monetary Policy Review.
