## **Dividends**

Distributions from the fund in the form of dividends will be on an annual basis or at the discretion of the Fund Manager.

Distributions from the Fund can be received as cash or by way of reinvestment in the fund for additional units.

Dividends payment of distributions as cash will be made in Sri Lanka Rupees to the registered Unit Holders. Dividend payments will be made only to the first holder and if the Unit Holder has elected to receive the dividend, the payment will be sent by normal post to the address registered with the Registrar at the risk of the Unit Holders by crossed cheques marked “Account Payee Only”.

Dividends belonging to minors will be automatically reinvested in units.

In the event that any of the income distributed remains unclaimed by a Unit Holder for a period of six (6) months after the date of distribution, the Fund Manager shall re-invest such funds (less any charges in processing the relevant transaction) in to Units at the Fund Manager’s Selling Price prevailing on the date and the number of Units standing to the credit of the Unit Holder will be increased.

**Risk Profile of the Fund**

Because the Fund invests primarily in Gilt edge and corporate fixed income securities with varying tenors and in listed REITS, the risk profile of the Fund can be considered moderately high. Market risk, Credit Risk, Liquidity risk, Currency risk and Re-investment risks are normally associated with investing in medium to long term fixed income securities and investors should understand the risks involved in each type of asset and overall exposure to the Fund.

**Risk Reward indicator**

Low risk			High risk	
1	2	3	4	5

- **Interest Rate Risk** – The value of interest bearing assets may fluctuate as a result of changes in interest rates.
- **Credit Risk** – The companies in which the Fund may invest may have their credit rating downgraded, fail financially or be unwilling or unable to make timely payments of interest or principal, thereby reducing the value of the Fund’s portfolio and its income.
- **Liquidity and Valuation Risk** – Certain of the Fund’s investments may be exposed to liquidity risk due to low trading volume, lack of a market maker, or legal restrictions limiting the ability of the Fund to sell particular securities at an advantageous price and/or time.
- **Currency Risks** – Fluctuation in exchange rates may affect investors who have to convert fund returns from LKR to other currencies.
- **Legal, Tax and Regulatory Risk** - Legal, tax and regulatory changes could occur during the term of the Fund that may adversely affect the Fund, its investee companies or investors. The tax laws in Sri Lanka may change, possibly with retroactive effect. Investors should review carefully this Explanatory Memorandum and consult with their tax advisers regarding the specific tax and other consequences of investing in the Fund.

- **Managed Portfolio Risk** – The Manager’s view on interest rates, the choice of investment strategies or choice of specific securities may be unsuccessful, thereby causing the Fund to not perform at optimal level or to lose money.
- **Large Investor risk** - Securities of unit trusts may be purchased and sold by “large” investors, such as institutions, funds of funds and investment portfolios. If a large investor redeems a portion or all of its investment from the Fund, some investments may have to be pre-maturely uplifted with penalty or require to be sold in the secondary market at prevailing rates, thus reducing the fund’s potential return. Conversely, if a large investor was to increase its investment in a fund, the fund may have to hold a relatively large position in cash for a period of time while the portfolio advisor attempts to find suitable investments. This could also negatively impact the performance of the fund and hence impact the return for other investors in the fund.

There are other circumstances (including additional risks that are not described here) which could prevent the Fund from achieving its investment objectives.

### Minimum Recommended Holding Term

The Fund may not be suitable for investors who plan to withdraw their money within three years.
