Fund Manager Comment

The Colombo Stock Exchange indices recorded significant increases during July 2023 with ASPI gaining 20.58% while the S&P SL20 Index gained 21.96%. The Fund's benchmark ASTRI also gained 21.25% while the Fund gained of 16.82% during the same period. The Domestic Debt Optimization (DDO) was announced at the end of last month with mainly impacting CBSL T Bill holdings and Superannuation Funds. Since the severity of DDO was much lesser than anticipated, especially with no major impact to the banking system, it resulted in a significant upward momentum in the equity market. In addition, interest rates witnessed a steep fall as the risk premium on DDO no longer exists and that too assisted the positive momentum in the bourse anticipating a shift in some funds from fixed income to equities, seeking better returns. Foreign activity increased to LKR 10.1 Bn in Jul 2023 vs LKR 4.0 Bn in Jun 2023. Foreigners were net buyers with a net foreign inflow of LKR 2.2 Bn during the month. With improved macro-economic fundamentals such as declining inflation, improving foreign reserves, increasing tourist arrivals, improved remittances etc. as well as forecasted rebound in economic activities due to declining lending rates, we believe there's further potential in equities to re-rate higher in the medium term.
