### Fund Manager Comment

The Colombo Stock Exchange indices recorded gains during Sep 2023 with ASPI gaining by 1.99% while the S&P SL20 Index gained 2.13%. The fund's benchmark Insurance Sector Total Return Index (INSTRI) gained 3.12% while the Fund gained 1.70% during the same period. The benchmark index is mainly constituted by Ceylinco Insurance PLC Voting (CINS.N) and Non-Voting (CINS.X) shares which jointly constitutes approximately 60% of index weight. The main contributor to subject month's INSTRI gain was also CINS.N while there were no other sector specific catalysts that impacted INSTRI. With regard to the overall market, during initial part of the month, the bourse had a positive momentum. However following that, investors adopted a wait and see approach as the IMF Review was ongoing ahead of its 2nd tranche and due to the uncertainty over a possible delay of that. As a result, the market turnover dipped and indices displayed some weakness. On future outlook, we anticipate interest rates to drop further and hence shift some fund inflows to equity from fixed income and expect further marked to market gains on Banks', Insurers' and Primary Dealers' Bond Portfolios. With improved macro-economic fundamentals and forecasted rebound in economic activities due to declining lending rates, we believe there's further potential in equities to re-rate higher in the medium term despite the short term hiccup.
