Fund Manager Comment

In Apr 2025, the ASPI continued its downward trend, declining by 0.09%, while the S&P SL20 dropped by 1.92%. The fund's benchmark Insurance Sector Total Return Index (INSTRI) declined 0.04%, yet the Fund increased 0.45% during the same period. There was no sector specific catalyst for the Insurance Sector during the month. At the start of the month, US President announced a list of countries that US plan to impose reciprocal tariff and Sri Lanka was imposed a significant 44% tariff. With this news, the market dropped below 14,600 levels. Later with the announcement of relief for a 90 day period, CSE witnessed a noteworthy recovery. The remainder of the month saw less volatility and subdued trading, partly due to the holiday season. During the month, Sri Lanka received the IMF staff level agreement to release the next tranche. The overall market activity witnessed an improvement, with average daily turnover of LKR 2.5 Bn in Apr 2025 vs LKR 2.1 Bn in Mar 2025. Foreign investors recorded a net inflow for the first time since Aug 2024 with LKR 800.2 Bn during the month. Looking ahead, the market slowdown in the short run may persist with challenges arising from US Tariff policies. However, we maintain a positive medium-term outlook on equities, supported by improved macroeconomic fundamentals, a low interest rate environment, and continued political stability.
