

## Senfin Insurance Sector Fund (LKR)

# Monthly Report | Aug-2023

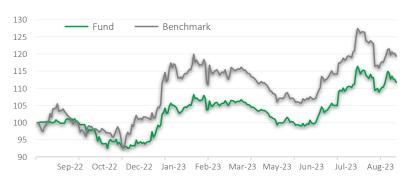

#### Fund Manager Comment

The Colombo Stock Exchange indices declined during August 2023 with ASPI declining by 2.39% while the S&P SL20 Index declined 5.39%. The fund's benchmark Insurance Sector Total Return Index (INSTRI) too declined 3.61% while the Fund declined 1.85% during the same period. The benchmark index is mainly constituted by Ceylinco Insurance PLC Voting (CINS.N) and Non-Voting (CINS.X) shares which jointly constitutes approximately 60% of index weight. The main contributor to subject month's INSTRI drop was also CINS.N. With regard to the overall market, during first few trading days, the bourse continued the positive momentum from last month. However following that, indices witnessed a drop mainly as a result of profit realising by investors. In addition, weaker earnings reported by listed corporates and CBSL maintaining policy rates constant while the market expected a rate cut added impetus to the decline. On future outlook, we anticipate interest rates to drop further and hence shift some fund inflows to equity from fixed income and expect marked to market gains on Banks', Insurers' and Primary Dealers' Bond Portfolios. With improved macro-economic fundamentals and forecasted rebound in economic activities due to declining lending rates, we believe there's further potential in equities to re-rate higher in the medium term.
