### Fund Manager Comment

The Colombo Stock Exchange indices recorded an increase during Jan 2023 with ASPI increasing by 4.42% while the S&P SL20 Index increasing by 4.89%. The Fund's benchmark Insurance Sector Total Return Index increased by 3.59% while the Fund increased by 3.30%. The benchmark index is mainly constituted by Ceylinco Insurance PLC Voting and Non-Voting shares which jointly constitutes more than 55% of index weight while remaining Insurance counters jointly constitutes less than 45% of index weight. With regard to the Sector Index, continuing from the previous month, significant trading activity and price appreciation was further witnessed in Softlogic Life Insurance PLC (AAIC) and Softlogic Capital PLC (SCAP) on the expectation that the group is intending to dispose its Insurance arm. Along with that, the whole Insurance Sector saw an uptick in their share prices. Although the country is showing glimpse of recovery, we believe that there are further challenges in the short run such as tax reforms reducing corporate earnings and consumer disposable income levels, proposed electricity tariff hikes, challenges in debt restructuring and impact of a global recession. However, beyond short term testing times, we look forward positively on equity in the medium run.
