

### Senfin Shariah Income Fund (LKR)

## Monthly Report | Oct-2022

#### Fund Manager Comment

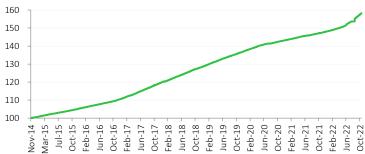

On a MoM basis, the Fund generated an annualized returned of 12.69% as of 31st Oct 2022. Market interest rates continued to remain at it's elevated levels as investors remained sceptic over a possible domestic debt restructure as the government pushed towards securing an extended fund facility with the IMF. Inflation (CCPI) however declined for the first time in a year but continued to remain high at 66.0% as at October 2022 mainly driven by the easing of food inflation during the month. Investors continued to pile their funds on shorter term instruments as the weekly T-bill auctions saw demand being concentrated mainly on the 3 month T-bill. Treasury bills yielded 33.05%, 32.53% and 29.60% on the 3 month, 6 month & 12 month bills respectively at the last auction of the month. However, the size of the fund and the limited investment options available for shariah complaint financial products in the country adversely affect the return of the fund.
