

## Monthly Report | May-2023

Senfin Asset Management (Pvt) Ltd  
 No. 267, Galle Road, Colombo 03,  
 Sri Lanka.

### Fund Manager Comment

On a month-over-month (MoM) basis, the Fund generated an annualized return of 13.79%, while the year-to-date (YTD) return as of May 31st, 2023, stands at 16.50%. Market interest rates witnessed higher volatility for the majority of the month due to the uncertainty over a possible domestic debt restructure and speculation over the monetary policy announcement in June. Inflation (Rebased CCPI index) fell further to 25.2% as at May 2023 mainly owing to the steep reduction in food inflation. With no bond auctions being announced for the month, treasury bill rates remained at relatively elevated levels as the 3,6 and 12 month bills ended at 25.65%, 25.29% and 22.91% respectively at the last auction for the month. Yields on long-term treasury bonds in the secondary market continued to edge higher, as investor uncertainty and skepticism drove yields to remain volatile ahead of the government's announcement on the debt restructure program.
