1.0 The Fund

1.1 Introduction

The Senfin Consumer Staples Fund (“Fund”) is an open-ended, Balanced Unit Trust that invests in Colombo Stock Exchange-listed shares that have exposure to the broader consumer and retail markets, i.e. companies that operate in segments where products are sold to individuals/households (B2C) including but not limited to FMCG, clothing, beverages, apparel, electronics etc. The Consumer & Retail Sector for the purpose of this KIID means the CSE sectors covering Capital Goods, Food & Staples, Food, Beverages & Tobacco, Household & Personal Products, Materials, Retailing & Telecommunication. In the event of there being any change in the GICS classifications of sectors published by the Colombo Stock Exchange, the sectors as revised which most closely reflects the sectors mentioned above would constitute the Consumer & Retail Sector for the purposes of this KIID. The Fund is a contractual arrangement between the Fund Manager and the Trustee who acts on behalf of the investors.

1.2 Investment Objectives

To achieve a balance between long term capital appreciation and income by investing in listed shares that have exposure to the retail and consumer sectors as well in fixed income securities

1.3 Investment Strategies

The Fund’s primary investment strategy will be to invest in a portfolio of listed shares that have an exposure to the Consumer & Retail sector. In the initial investment phase of the portfolio, a high proportion of the Fund will be invested in fixed income securities. Thereafter, the Manager will invest up to 90% of the portfolio’s assets in listed equity securities with exposure to the sector subject however that the minimum investment shall not be less than 40% of the portfolio’s assets. The Fund may invest in all categories of equity listed on the Colombo Stock Exchange in the Consumer & Retail Sector, including voting and non-voting shares, preference shares, right, warrants, Initial Public Offers, offers for sale and other equity related issues.

When equity markets are believed to be overvalued or on a negative downtrend, the Manager expects to liquidate equity investments, subject to a minimum of 40% being invested in Consumer & Retail Sector equity and utilize the proceeds of such liquidation to invest in fixed income securities as set out in the Permitted Investment section of this KIID.

The Fund will adhere to the single entity exposure limits stipulated by the SEC from time to time.

The Fund Manager may use an Investment Committee to facilitate the investment decision-making process. A Compliance Officer will be appointed to monitor the investment activities of the Fund in order to ensure that investments in the Fund comply with the rules and regulations prescribed by the SEC.

1.4 Benchmark of the Fund

The Fund’s benchmark will be an aggregate market capitalization-based index of the following CSE sectors; Capital Goods, Food & Staples, Food, Beverages & Tobacco, Household & Personal Products, Materials, Retailing & Telecommunication adjusted based on the equity to fixed income allocation of the fund.

1.5 Permitted Investment Instruments

- Equity listed on the CSE that has exposure to the broader Consumer & Retail Sector; equity securities will include voting and non-voting shares, preference shares, right, warrants, Initial Public Offers, and offers for sale.
- Treasury Bills and Treasury Bonds.
- Repurchase Agreements of both Government Securities and Corporate entities.
- Savings and Fixed Deposits of Licensed Commercial Banks, Licensed Specialize Banks, Licensed Finance Companies, Specialized Leasing Companies and other financial institutions approved by CBSL from time to time;
- Corporate debt instruments including Asset Backed Securities, Commercial Papers, and Debentures;
- Money Market Unit Trust Funds approved by the SEC*.
- Income Unit Trust Funds approved by SEC*.

** In the event that the Fund invests in money market and income unit trust funds managed by Senfin Asset Management (Pvt) Ltd, the management fee applicable on own money market and income funds will be waived off so that Senfin Asset Management (Pvt) Ltd, does not charge further management fees from the investors of the Senfin Consumer Staples Fund*

1.6 Investment Parameters

The Senfin Consumer Staples Fund will adhere to the asset allocation parameters prescribed by SEC Directive dated 7 Jan 2009, ref: SEC/LEG/09/01/08 and Collective Investment Scheme Code dated 7th May 2022 etc

1.7 Distribution of income & gains in the form of dividends

The Fund may distribute at the discretion of the Fund Manager, all or part of the realized income and gains to its Unit Holders.

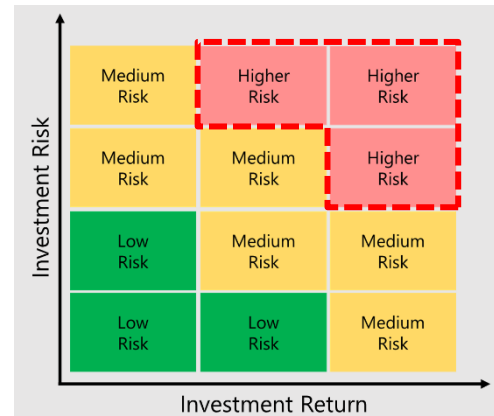

1.8 Primary Investment Risks & Suitable Investor Profile

Because the Fund will invest in listed equity securities, the risk profile of the Fund can be considered high.

Furthermore, investing in the Fund involves risks associated with making investments in equities. The value of Units or the Net Asset Value of the Fund may go down as well as up, and there can be no assurance that at the end of the Fund's term, investors will receive the amount originally invested.

Accordingly, the Fund is only suitable for investment by investors who understand the risks involved in investing in shares and can tolerate share market fluctuations and in turn fluctuations in the Net Asset Value of the Fund.

Furthermore, investment in this Fund is not a bank deposit and is not insured or guaranteed by any government institution. Furthermore, since the objective of the Fund is capital appreciation, the Fund is suitable for investors who are willing and are able to remain invested in the Fund for at least 3 years.

Some of the risks that investors coming into this Fund should consider are provided below.

Equity Security Listed shares are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. Investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction and global or regional political, economic, banking and health crises. The value of equity securities in the Fund's portfolio will fluctuate and, as a result, the Fund's unit price may decline suddenly, or over a sustained period of time.

Industry Concentration The Fund's investments are concentrated within the broader retail & Consumer Industry. Therefore, any factors detrimental to the performance of the industry will disproportionately impact the Fund. Investments focused in a particular industry are subject to greater risk and are more greatly impacted by market volatility than less concentrated investments. Furthermore, the fund may underperform the market in the event that future economic variables favour different market sectors.

Dividend Yield The Fund may earn income in the form of dividends from companies that the Fund has invested in. Those companies may reduce or discontinue their dividends, thus reducing the yield of the Fund. Lower priced securities in the Fund may be more susceptible to these risks. Past dividend payments are not a guarantee of future dividend payments. Also, the market return of high dividend yield securities, in certain market conditions, may be worse than the market return of other investment strategies or the overall stock market.

Illiquid Stock Some stocks may be relatively illiquid, thereby purchasing and disposing of such shares may incur higher premiums and steeper discounts respectively.

Interest Rate	Interest rate risk is the risk that fixed income prices overall, including the prices of securities held by the Fund, will decline over short or even long periods of time due to rising interest rates. Securities with longer maturities and durations tend to be more sensitive to interest rates than securities with shorter maturities.
Managed Portfolio	The management's investment strategies, or choice of specific securities, may be unsuccessful and may cause the Fund to incur losses.
Frontier Markets	To the extent that the Fund will be investing in a frontier market, the risk may be heightened by political changes and changes in tax or currency controls that could adversely affect the values of these investments. Frontier markets have been more volatile than the markets of developed countries with more mature economies.
Legal, Taxation and Regulatory	Legal, tax and regulatory changes could occur during the term of the Fund that may adversely affect the Fund, its investee companies or investors. The tax laws in Sri Lanka may change, possibly with retroactive effect. Investors should review carefully this KIID and consult their tax advisers regarding the specific tax and other consequences of investing in the Fund.
Large Investor	Securities of unit trusts may be purchased and sold by "large" investors, such as institutions, large funds and investment portfolios. If a large investor redeems a portion or all of its investment from a unit trust at a time when the equity markets are trending downward, some securities may have to be sold at unfavorable prices, thus reducing the fund's potential return. Conversely, if a large investor was to increase its investment in a fund, the fund may have to hold a relatively large position in cash for a period of time while the portfolio advisor attempts to find suitable investments. This could also negatively impact the performance of the fund and hence impact the return for other investors in the fund.

There are other circumstances (including additional risks that are not described here) which could prevent the Fund from achieving its investment objectives.

1.9 Fees & Expenses

Front- end Fee	The Fund will not charge a Front-End fee.
Exit Fee	The Fund will not charge an Exit Fee.
Management Fee	The Fund will pay a Management fee of 1.00% per annum of the Net Asset Value of the Fund to the Fund Manager for acting in that capacity. The fee will be calculated and accrued as at each Valuation Day and will be payable monthly in arrears.
Trustee Fee	The Fund will pay Hatton National Bank PLC a Trustee fee of 0.20% per annum of the Net Asset Value of the Fund. The Trustee fee will be calculated and accrued as at each Valuation Day and will be payable monthly in arrears.
Custody Fee	The Fund will pay Hatton National Bank PLC a Custody Fee of LKR 20,000 per month in addition to the Trustee Fee.
